

Bingó með samsettum orðum:

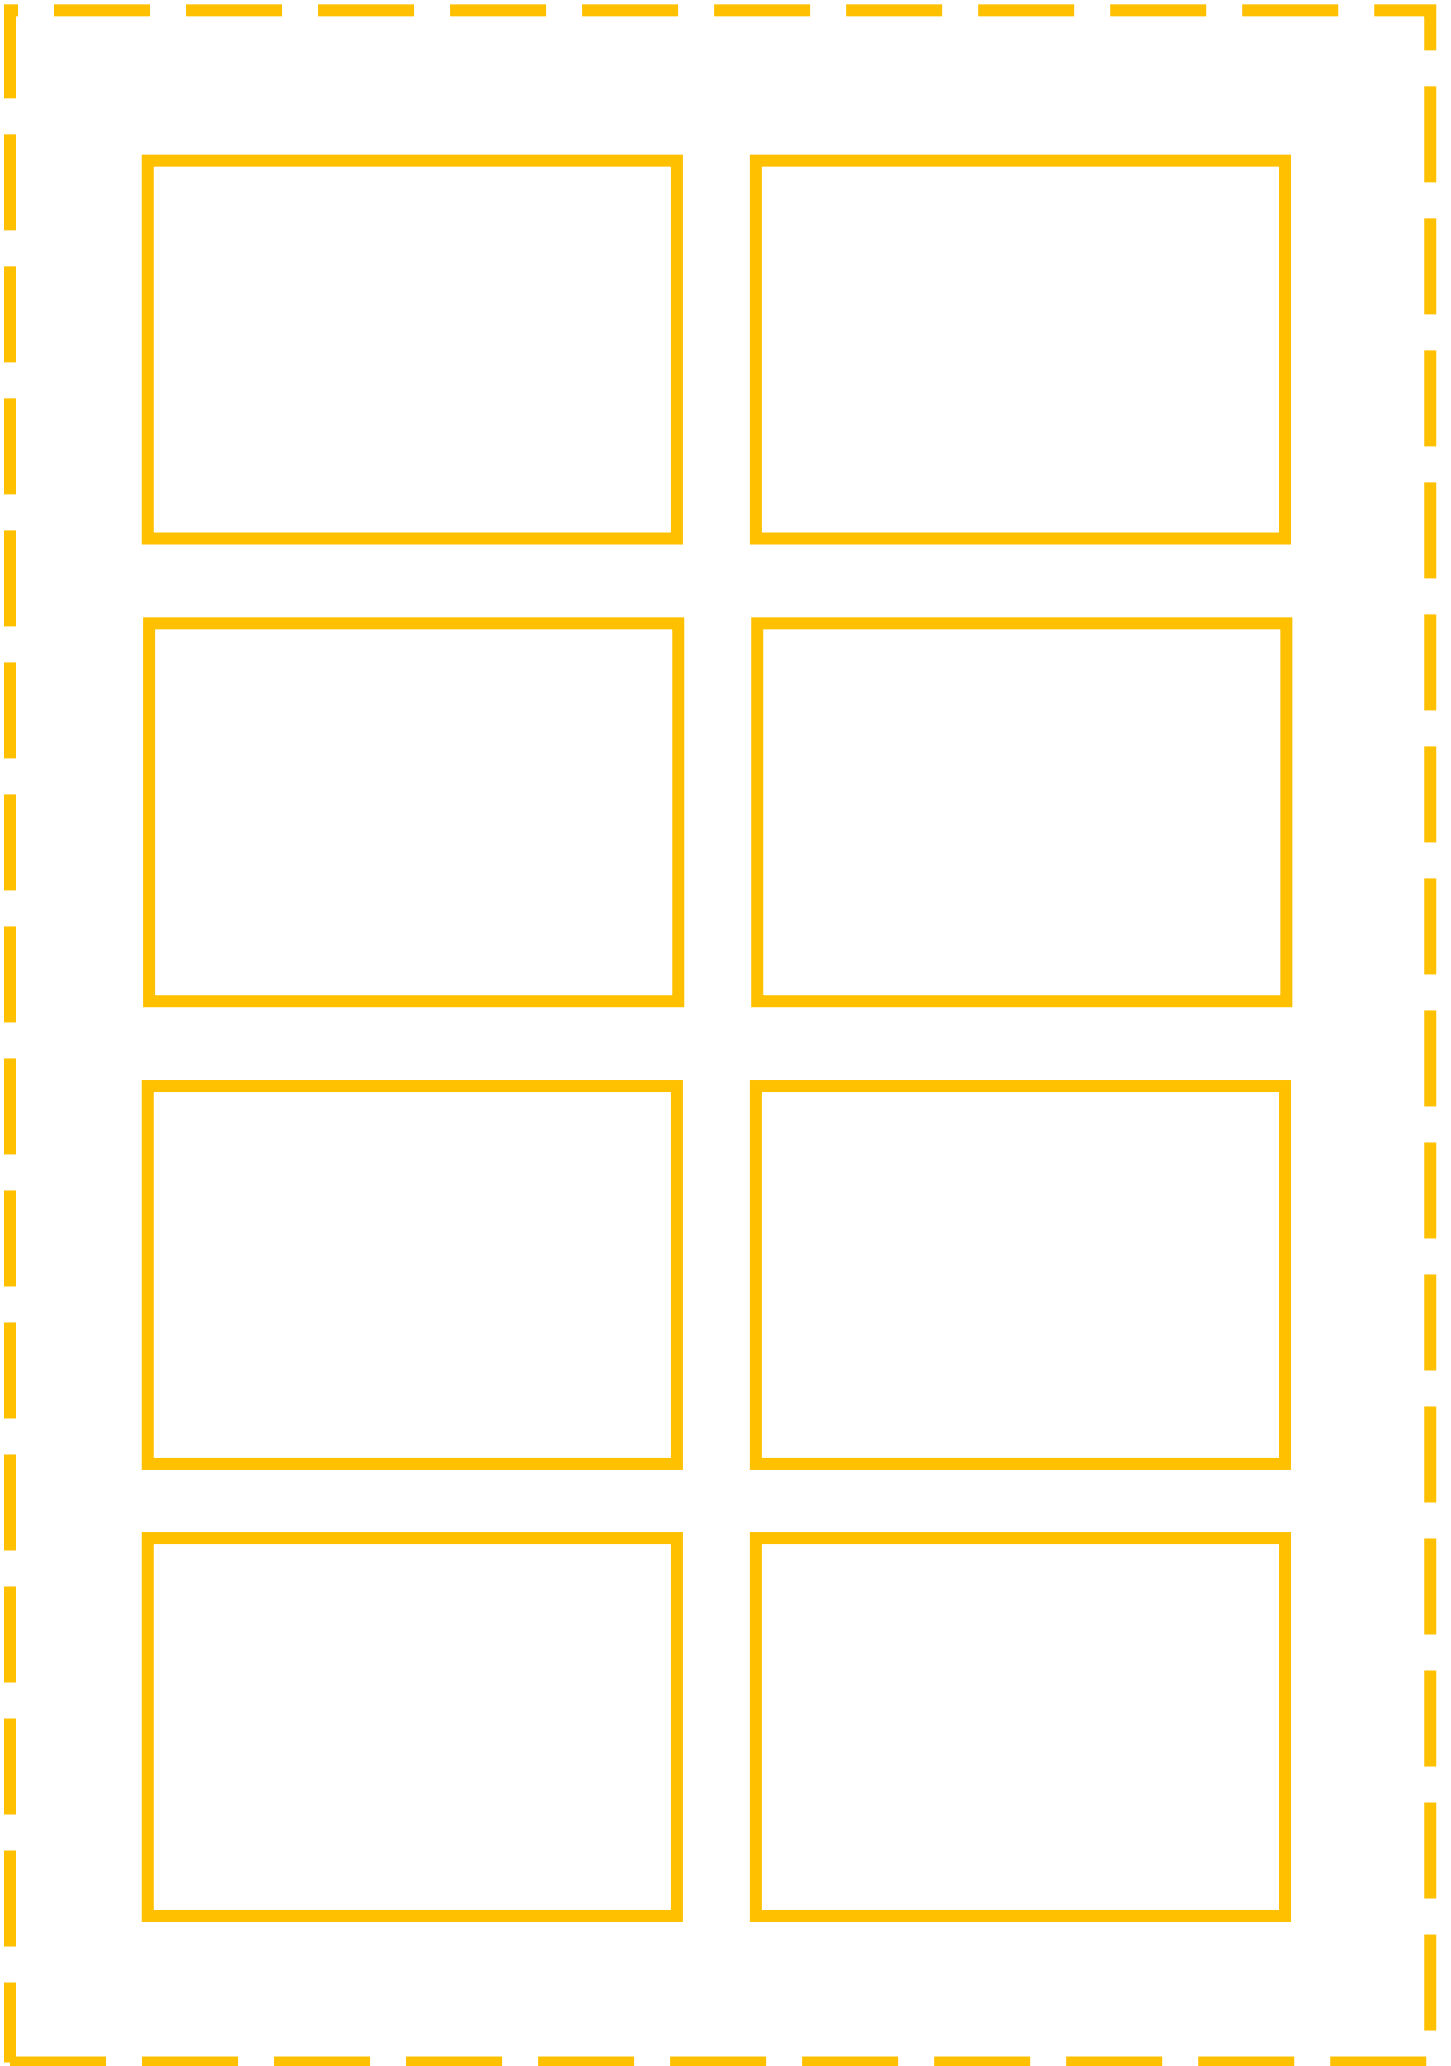

- Plasta bingóspjöldin í plöstunarávél
- Klippa spjöldin með samsettu orðunum, plasta í plöstunarávél og klippa svo aftur

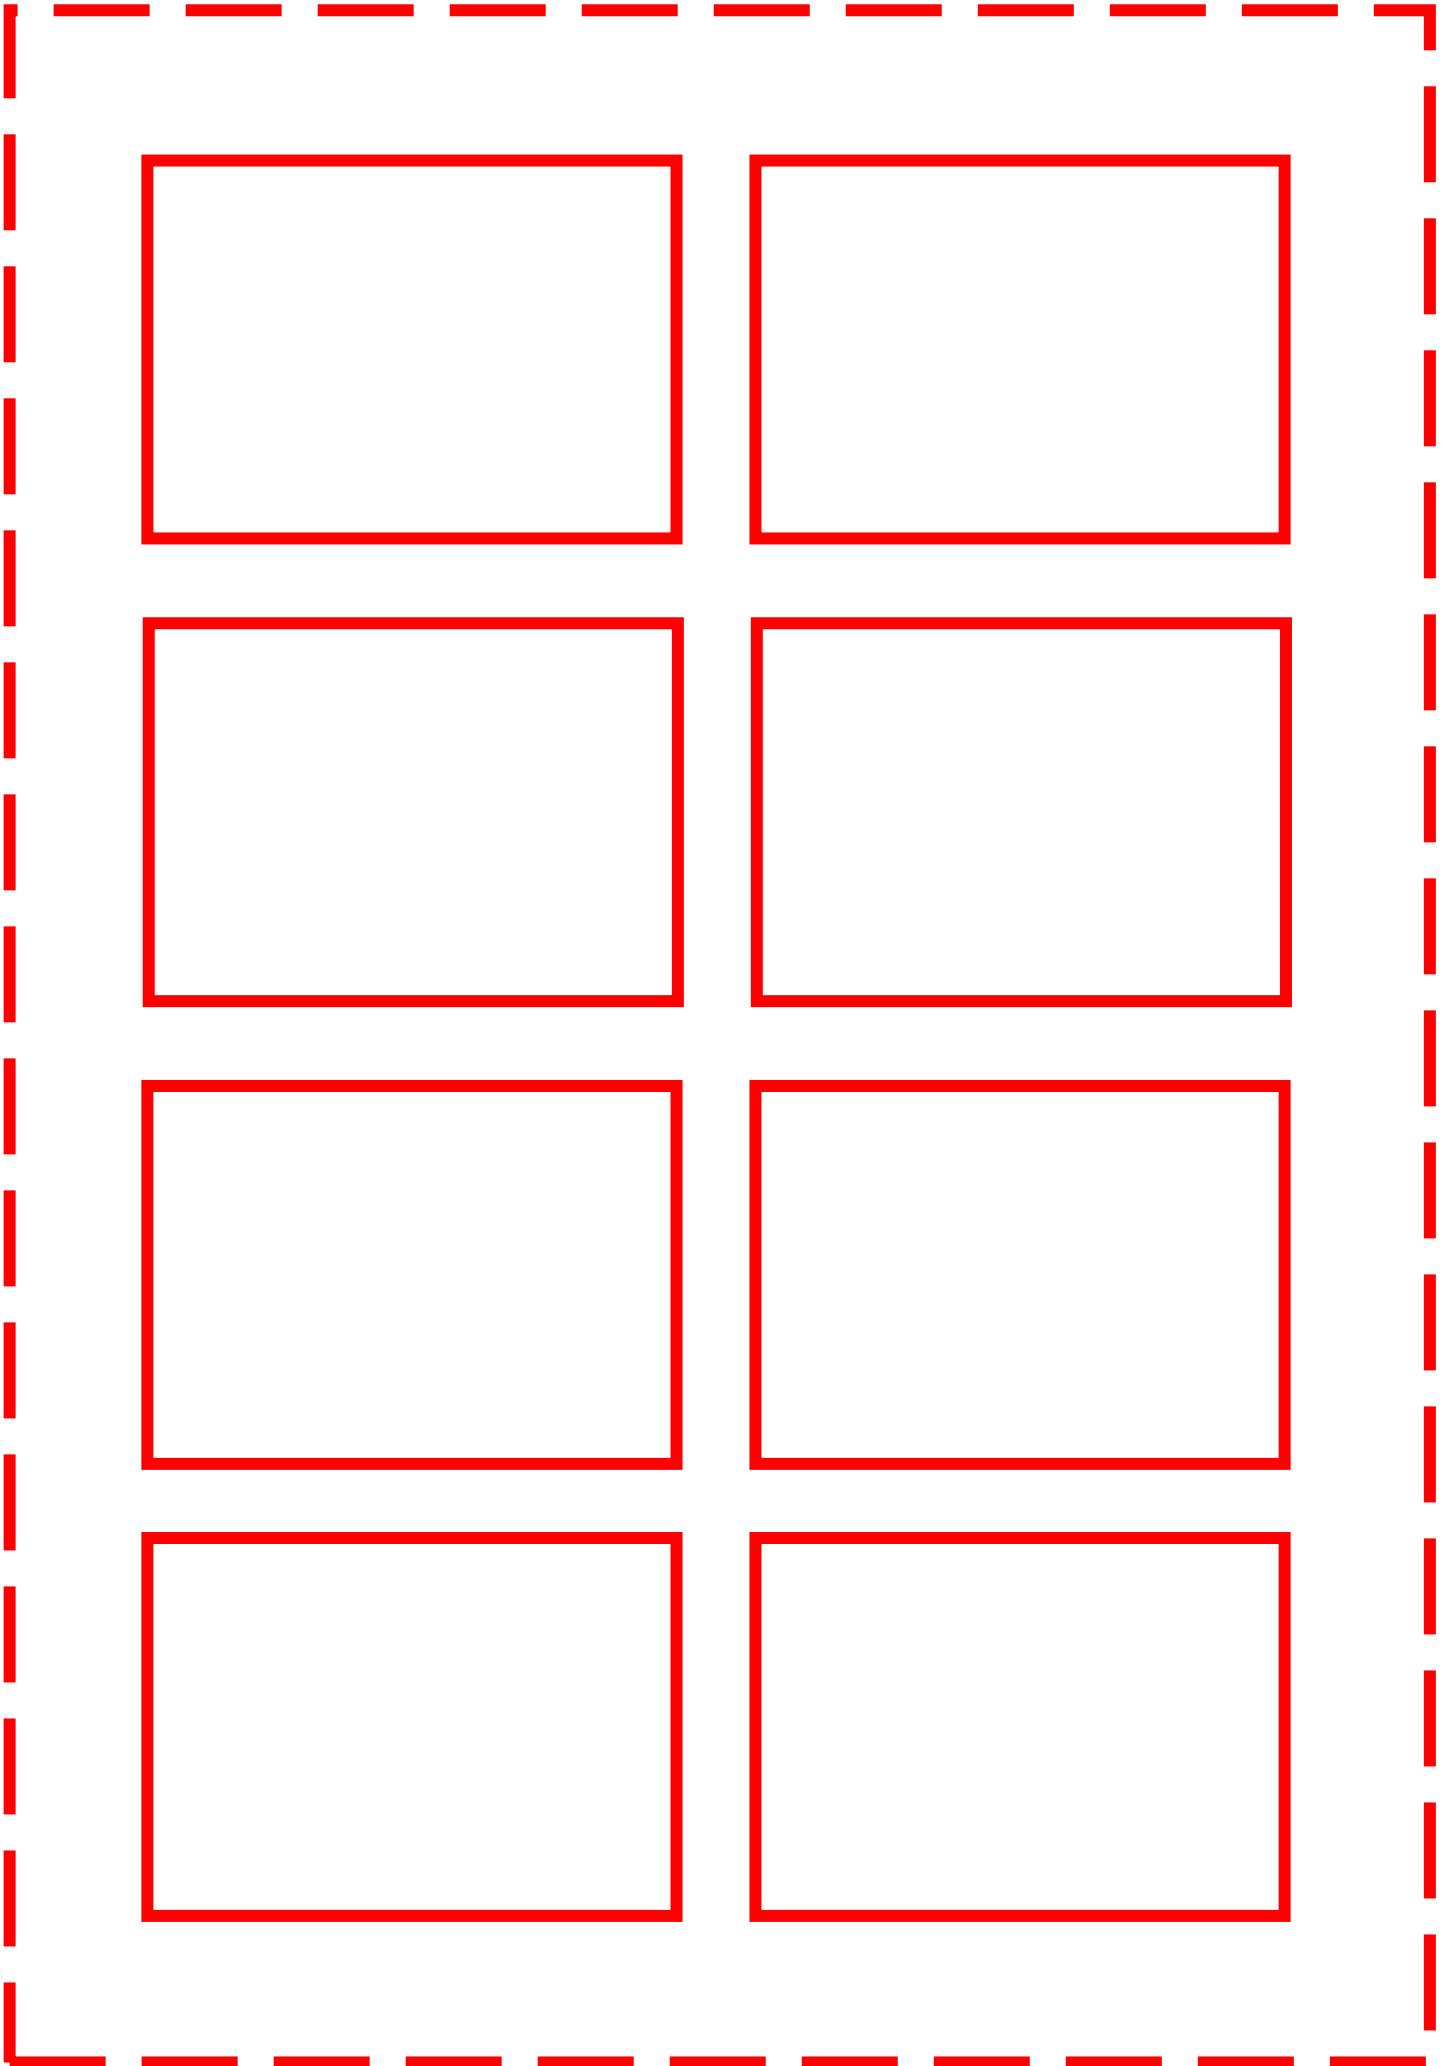

Bingóið:

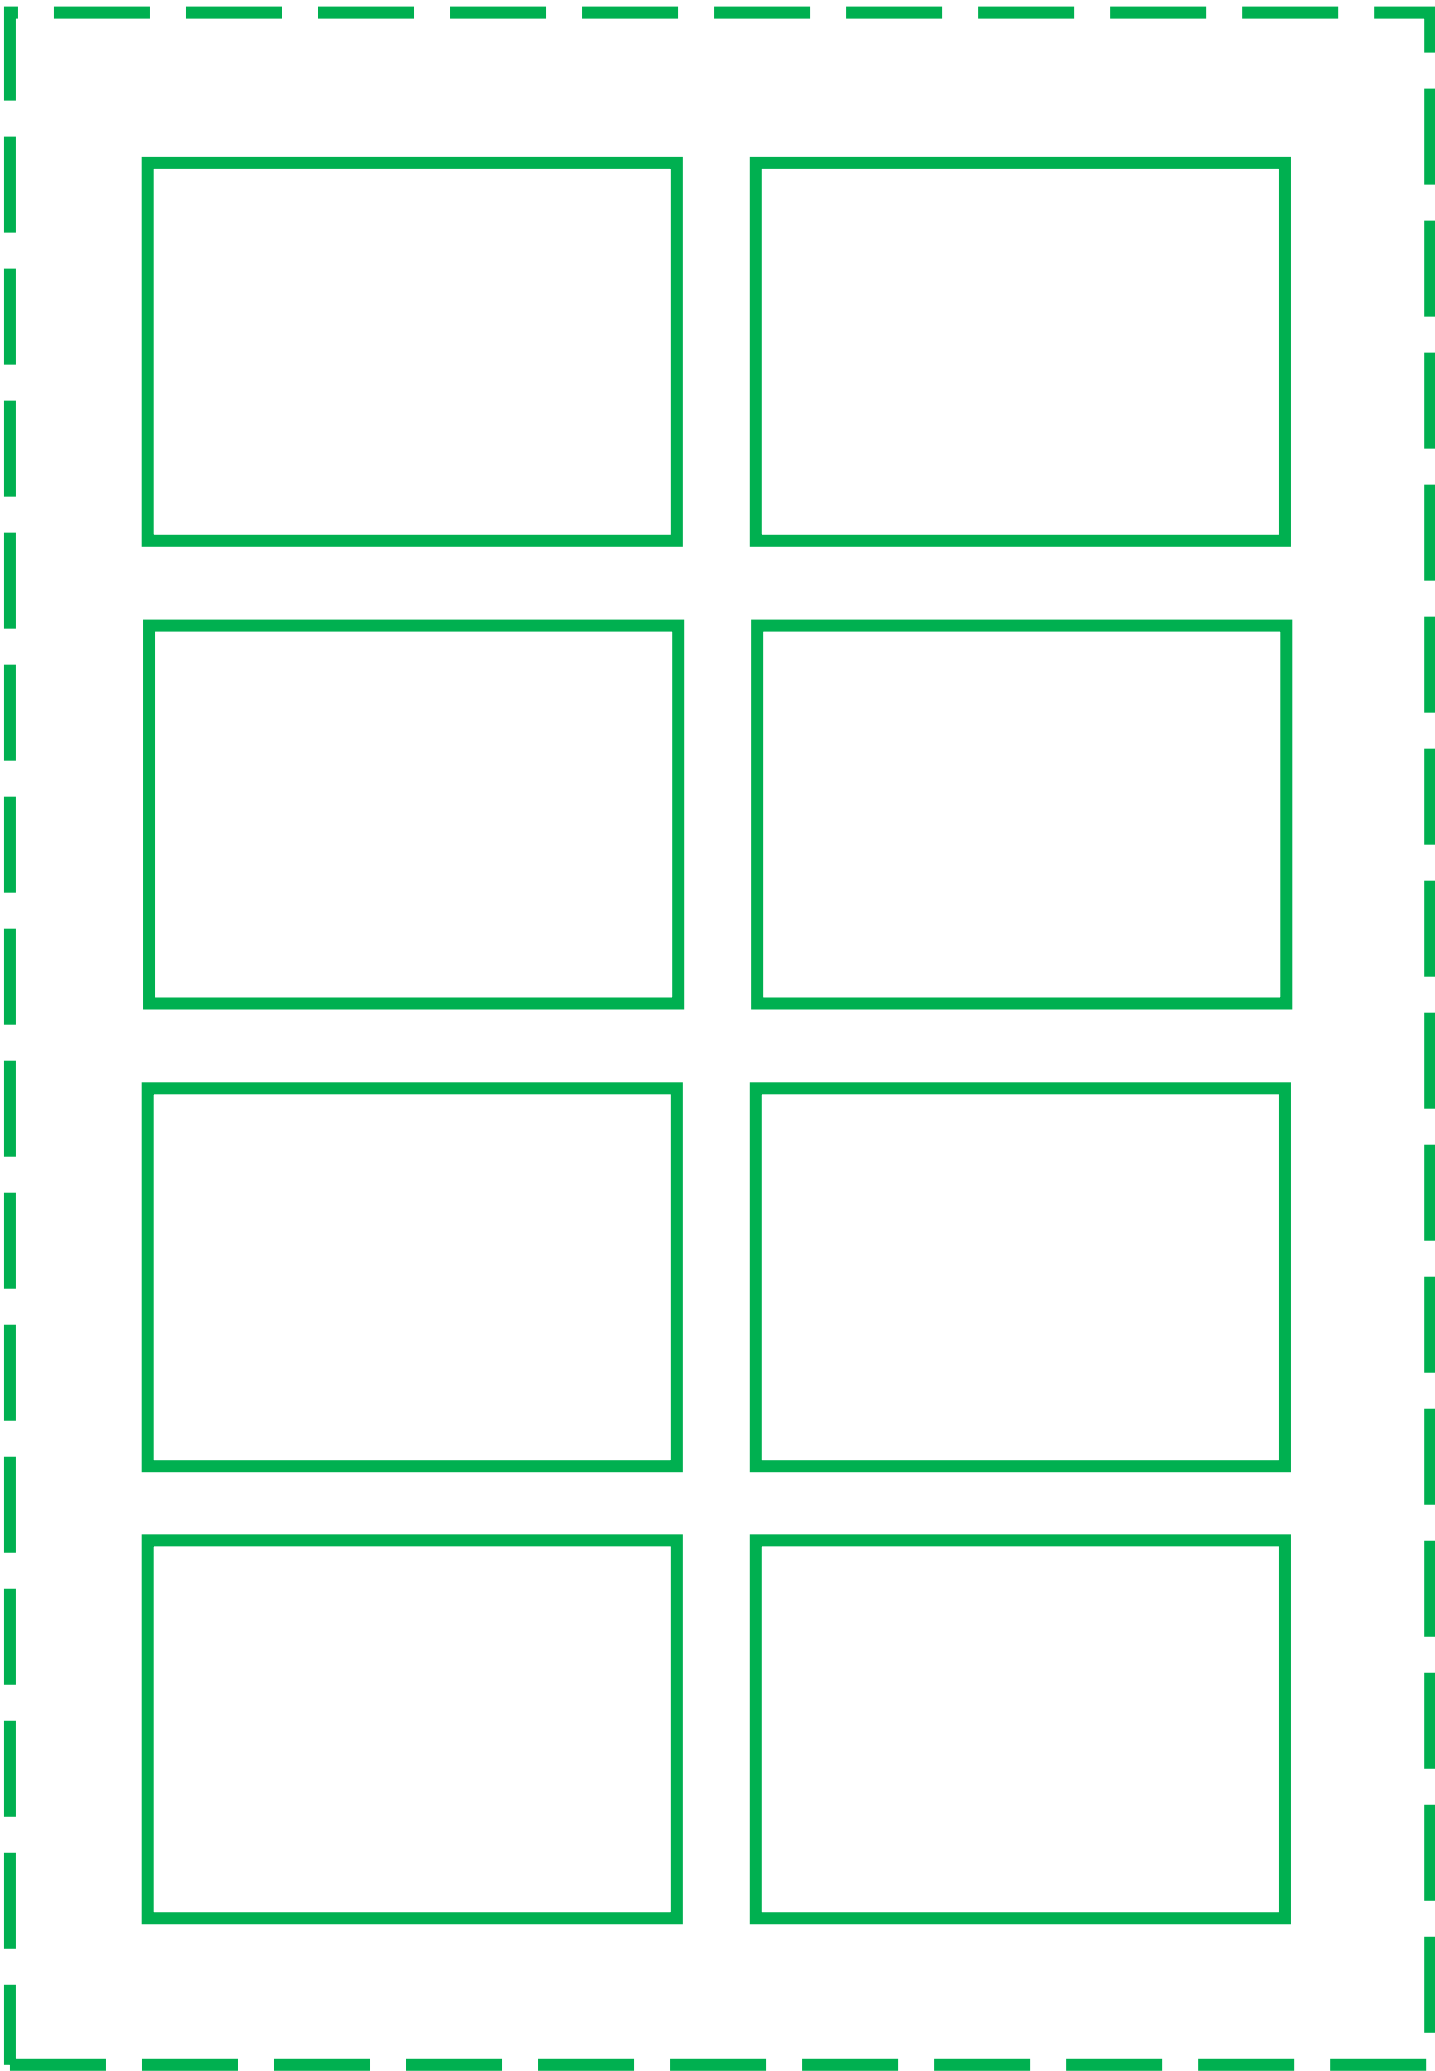

- Spjöldunum skipt í tvennt (ósamsett og samsett orð) og ákveðið hvort fer á bingóspjöldin.
- Þeir sem spila draga svo sín spjöld og setja í ramma á sínu bingóspjaldi.
- Bingóstjórinn dregur eitt spjald í einu úr sínum bunka t.d. bíll og stóll. Þeir sem eru að spila leita þá hjá sér hvort þeir eru með samsetta orðið bílstóll á sínu spjaldi og sá sem er með það leggur bílstólinn ofan á bíll - stóll.
- Hægt að gera þetta öfugt og lesa bílstóll og þá á að finna ósamsettu orðin.
- Einnig má hugsa sér að blanda úr báðum hópum. Sá vinnur sem fyrstur fyllir sitt bingóspjald.

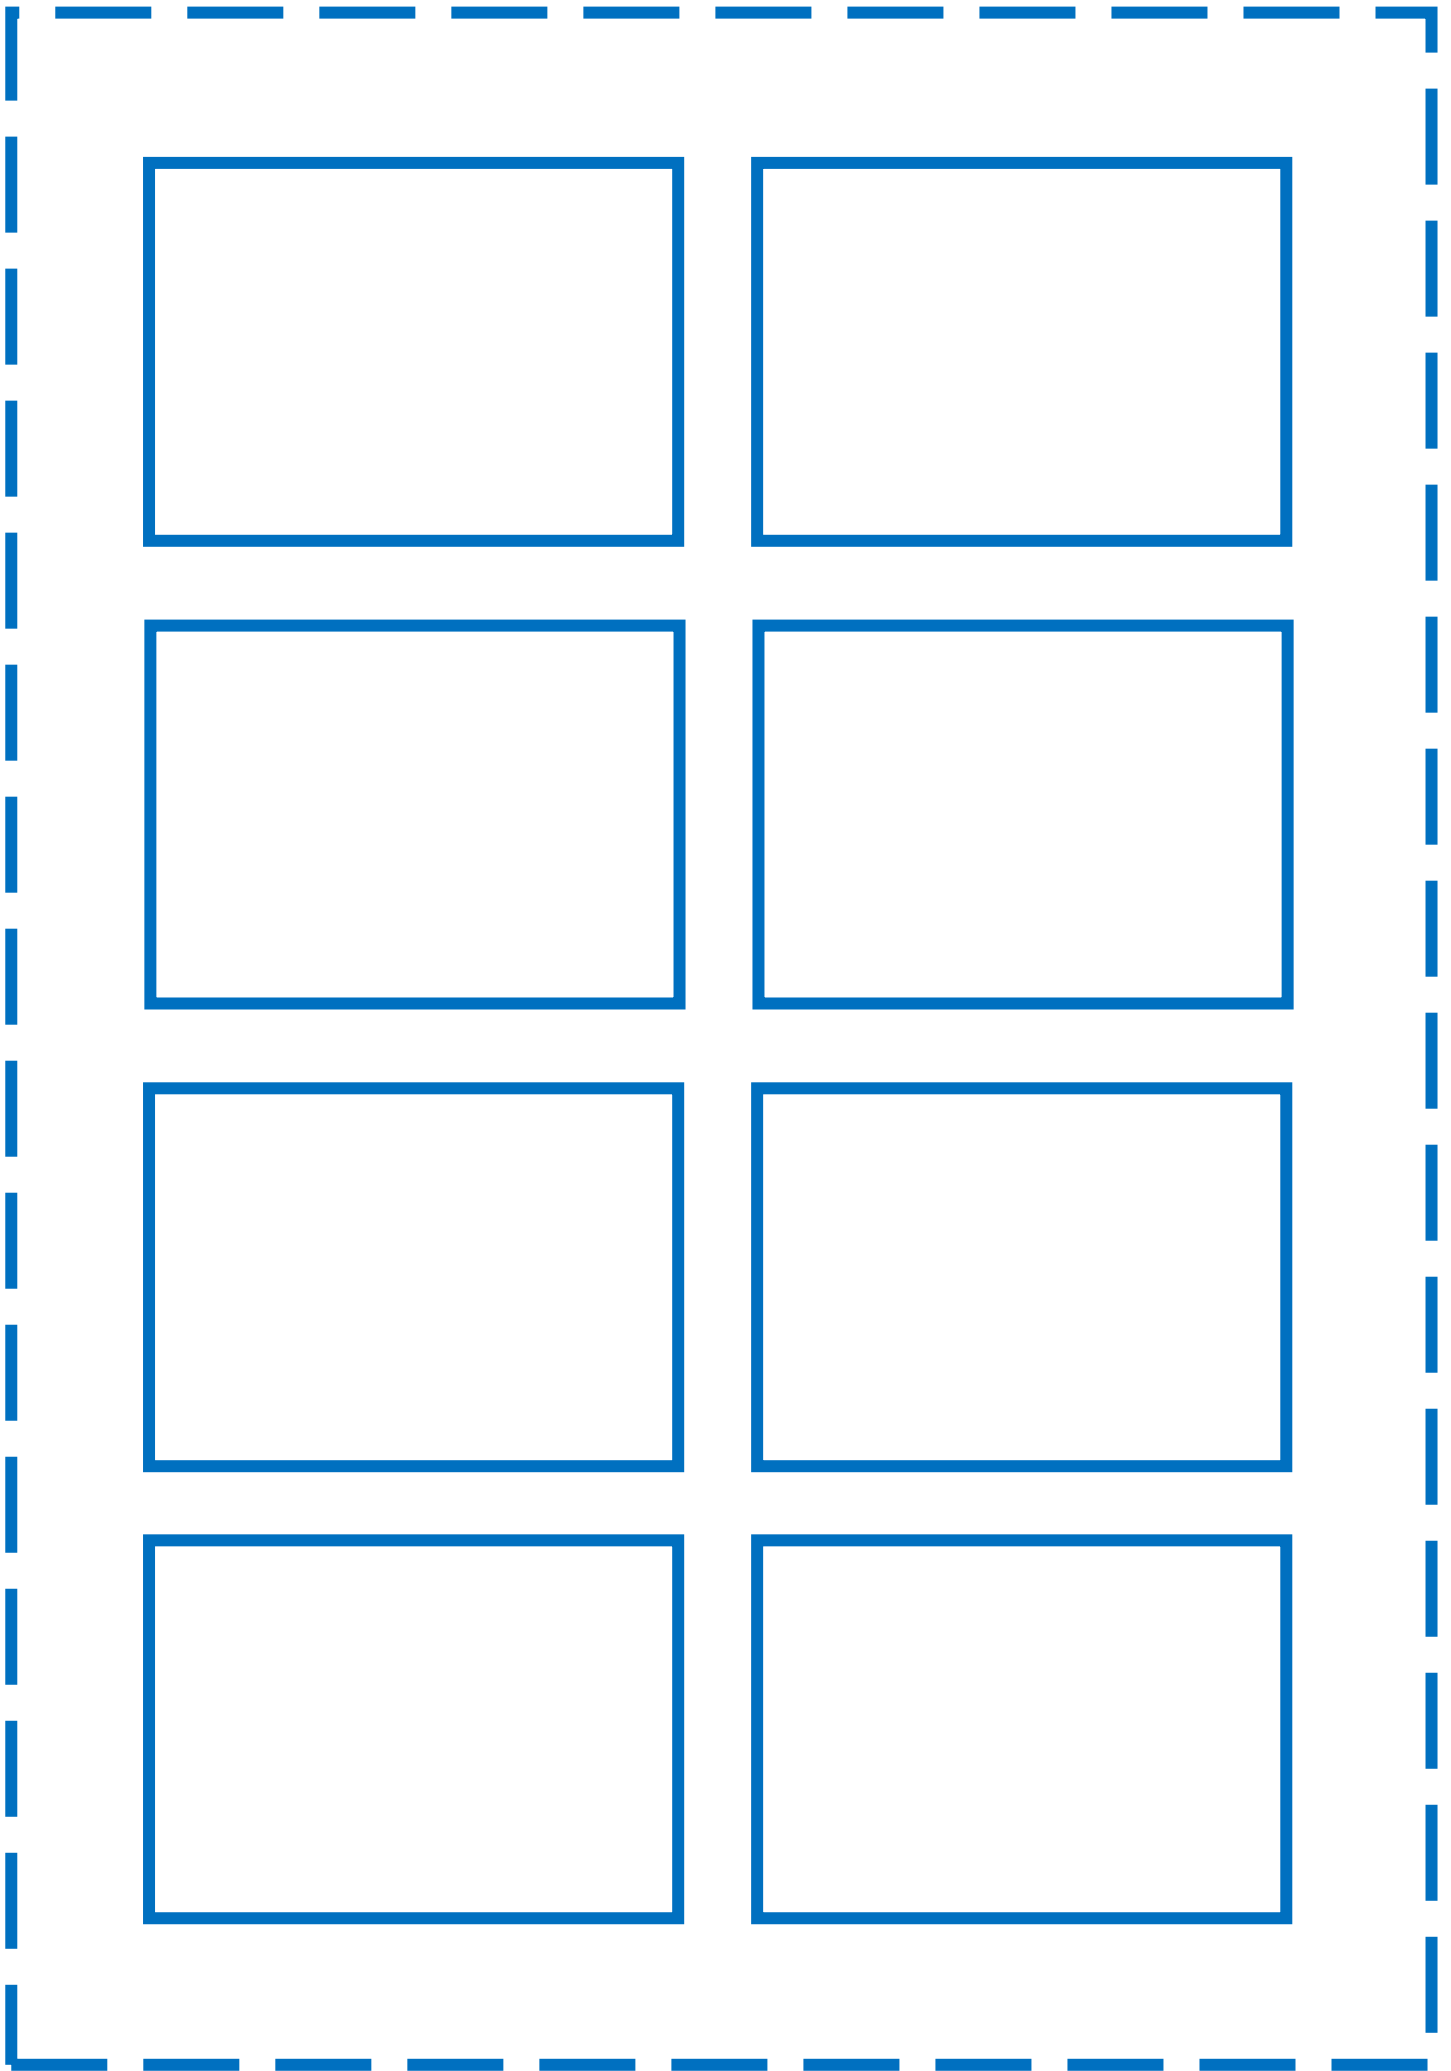

Annað:

- Auðvelt er að nota spjöldin líka til að spila samstæðu/minnisspil.
