

Para saman bókstafi og orð

Klippið út öll spjöldin, plastið og klippið aftur. Það á að para saman myndir við bókstafi og eru bókstafirnir ýmist fyrstir í orðinu eða inni í orðinu, þeir sem á að finna eru merktir með rauðu. Hægt að leika með þetta á borði eða gólfi. Ef veggpláss er gott er hægt að festa franskan rennilás á vegg og það sem er á móti er fest aftan á spjöldin. Ef ekki er veggpláss sem má nota í svona er hægt að nota hlið af pappakassa, plasta hana og setja franskan rennilás í nokkrum röðum, eftir stærð pappans. Það má líka nota spjöldin þannig að fyrsti stafur í orði sé tengdur við réttan bókstaf og hunsu rauðu stafina en það eru þá engin orð sem byrja á ð og x. Við höfum gert þetta svona í Nóaborg:
